Product Management · AI Product Development · Product Analytics

WORK EXPERIENCE

AI Product Manager (Intern) · self.xyz | Jun 2026 - Aug 2026

- Co-prototyped agent-native products in privacy and payments with engineers.
- Designed agent workflows, context management, evaluations, and human-in-the-loop checkpoints; built dashboards to track product progress.
- Built a journey-mapping and clickstream reporting system that defined events for developer handoff and automatically generated dashboards via MCP.

Senior Product Analyst · Zomato | Gurgaon, India | Oct 2024 - Jul 2025

- Shaped Homepage and Search for millions of daily visitors using clickstream analytics.
- Led Friends' Recommendations, using clickstream and a social graph spanning **one billion contacts**.
- Supported Food Rescue, helping reduce food waste by approximately **50%** across India.

Product Analyst · Udaan | Bangalore, India | Feb 2023 - Sep 2024

- Built real-time supply-chain reporting for **1,000+ stakeholders**.
- As Wondermart's sole analyst, optimized listing and pricing through national expansion; implemented clickstream analytics and helped create Percept Insights.

Data Analyst · Snapdeal | Gurgaon, India | Jun 2020 - Sep 2022

- Automated warehouse forecasting and purchasing; managed seller ad analytics and reconciliations.
- Supported A/B experiments and ad optimization that increased seller ad revenue by **14%**.

SELECTED PROJECTS

JPMorgan Chase · FamilySync | Northwestern EDI | Service Design

- Designed an agentic caregiver payments service with JPMorgan Chase; mapped payment handoffs and tested delegated approvals through caregiving scenarios.

McDonald's · Squad Up | Northwestern EDI | Interaction Design

- Designed a group-ordering experience with McDonald's, grounding journey maps and prototypes in 4 site observations, 8 interviews, and 22 survey responses.

Procter & Gamble · Sponsored Product Innovation | Northwestern EDI | 2025

- On a five-person P&G-sponsored design team, synthesized 8 in-home and 16 central-site visits into requirements, then developed and iteratively tested prototypes.

TinkerVerse · @tinker_verse | Feb 2024 - Present

- Build and document **IoT, robotics, and 3D-printed prototypes**, including a voice-controlled home assistant, drawing plotter, and lighting sculptures.

EDUCATION

Northwestern University · MS Engineering Design Innovation | Evanston, US | 2025 - Present

BITS Pilani · MSc Biological Science; B.Tech Civil Engineering | Hyderabad, India | 2016 - 2021

LEADERSHIP & PROTOTYPING

Camp Lead · Camp EDI, Northwestern | 2026

- Developed hands-on workshops combining electronics, fabrication, and physical prototyping.

School Ambassador · Bambu Lab | Northwestern

- Supported campus printer labs and student training in 3D printing and prototyping.

Top 10 · ASEAN-wide Edge AI & IoT Challenge (2024) | Circuit Digest / DigiKey

TEDx BITS Hyderabad (2019) | Stage Design Head

SKILLS

AI & Engineering: Claude Code, Codex, RAG (retrieval-augmented generation), Python, SQL, C/C++, Arduino, IoT.
Design: Human-centered design, user research, synthesis, prototyping, Adobe Suite, CAD, data visualization.
